

Update: On-site COVID-19 viral tests at Royalton Antigua Resort and Spa

July 2, 2021

Dear Valued Partners,

Seeing remarkable progress with the vaccination rollout worldwide and eased government protocols and restrictions, we wish to inform you that **free on-site COVID-19 viral antigen testing for US residents will end at Royalton Antigua Resort and Spa on July 1, 2021.**

We are delighted to share that Royalton Antigua Resort and Spa has extended a grace period to all guests checking out through July 15, 2021 and will cover the cost of the viral antigen test.

For the convenience of our guests who are checking out after July 15, 2021, viral antigen testing is available on property at the 24-hour clinic at an extra cost. A preferred price has been negotiated to benefit our guests at a rate of \$75 USD per adult.

Testing will be carried out by a medical professional in a designated area of the resort, and we strongly encourage future guests to schedule their appointment upon arrival to the property through our Guest Services team due to high demand.

Disclaimer: COVID-19 viral testing is a third-party service provided by a certified local lab in alliance with our in-house doctors. Blue Diamond Resorts will not accept responsibility for any disputes related to the use of this service. The use of this service is at the complete discretion of the guest and guests will always have the option to visit any local clinic to take the test on their own.

The safety of our guests and employees are our priority and it is our promise that we will continue to share up-to-date information as it becomes available. To learn more about our Safety-Assured Vacations protocols and download the complete guide, please [click here](#).

Kind Regards,
Blue Diamond Resorts
