

Puerto Vallarta, Jalisco, Mexico, May 26th, 2022

Dear partner,

Through this communication, you are informed that all reservations made as of June 1st, 2022 at Hilton Vallarta Riviera All-Inclusive Resort will no longer have the Antigen COVID-19 test included in their stay.

As for reservations made until May 31st, 2022, regardless of their date of stay, it will continue to include an Antigen test, for each guest in the reservation, as long as they prove that they're flying to a destination where a test is mandatory to enter, when checking out from the hotel. In case a PCR test is necessary, it will have an additional cost of 145 USD*.

If guests, with a reservation made after June 1st, 2022, wish to be tested by the 3rd-party medical service in the resort, these will have a cost of 45 USD* per Antigen test, and a previous reservation with our Concierge team is needed.

If you have any questions or comments, please get in touch with your contact within the hotel, send an email to PVRPA_Hotel@hilton.com or call us at +52 (322) 176 1300.

Sincerely,

Hilton Vallarta Riviera All-Inclusive Resort

*Prices include 16% tax and are subject to changes without previous notice.
